

Avoiding Children's Falls

Teach children to put games and toys away after use.

Supervise children whenever possible when they are playing outdoors

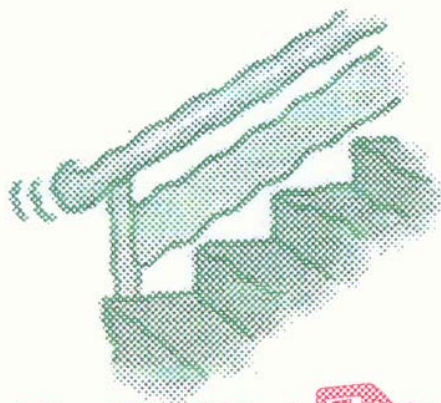

Move furniture away from windows and fit window locks (remember to keep the key nearby in case of fire).

Never let a child cycle without a safety helmet.

Never put a baby bouncer on a table or chair - keep it on the floor.

Use a safety gate or barrier on the stairs - top and bottom.

Ensure toddlers cannot climb up, fall over or slip through banisters and railings on stairs.
